## Aged Oak Barn Board

Our authentic reclaimed wood is salvaged mainly from historical barns dating back to the early to late 1800's. This aged to perfection siding is the result of over 100 years of natural weathering, hidden from the rain, snow and wind. We surface brush this product to clean and reveal the patina. This product ranges from a light to dark brown tone aged patina and contains original circular saw marks and nail holes from where it has been reclaimed, giving it a great history.
